

David learns to be careful

By: Bat Sheva Yehezkel and Efrat Avitan

**It was Passover Eve.
David wanted to help
Mom clean the house.**

**Mom is very busy.
'I can clean the
windows!' said David.**

David finds a blue bottle.
It is the window spray.

Window spray

David was not **careful**. He is spraying from the bottle too close to his face.

Oh no! A little spray got into David's eye.
“**Ouch!** My eye hurts!” David is crying.

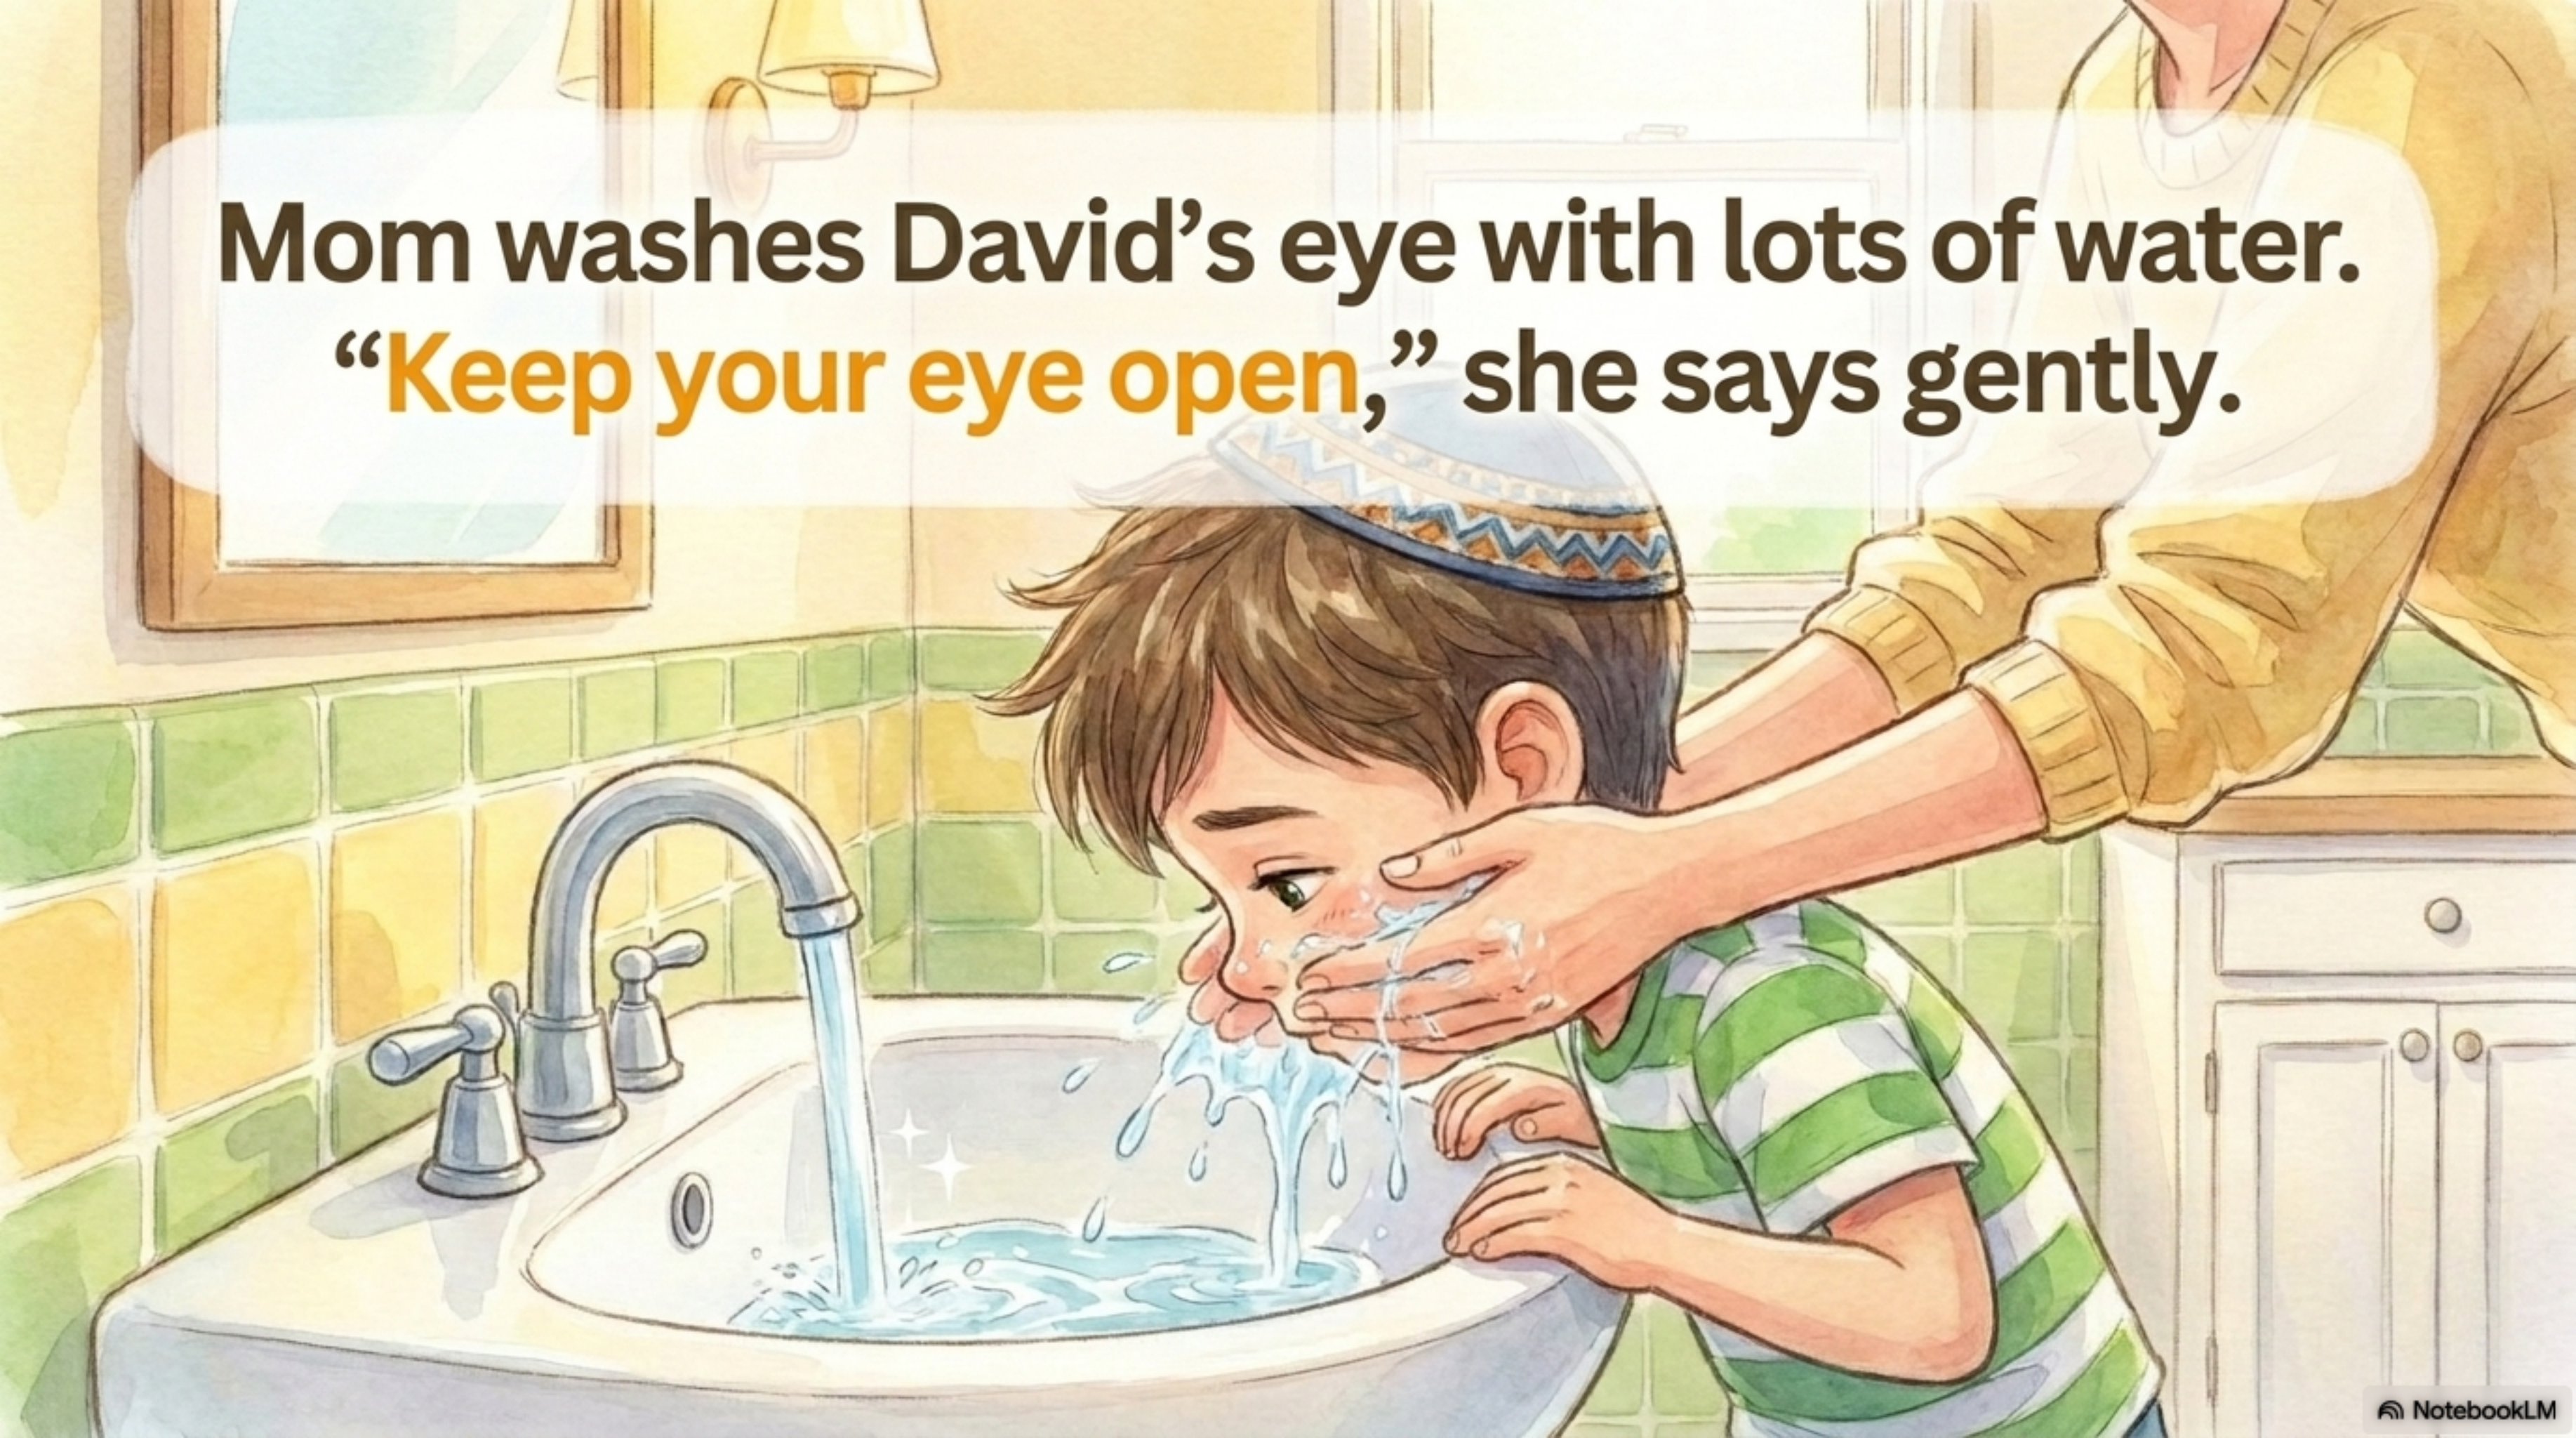

Mom hears David and runs to the room. She sees the blue bottle on the floor.

**“Come quickly, David!” says Mom.
She takes him immediately to
the sink in the bathroom.**

Mom washes David's eye with lots of water.
“**Keep your eye open,**” she says gently.

**After a few minutes, David feels better.
His eye is a little red, but everything is okay.**

Mom looks at David. 'Cleaning sprays are **dangerous** for children,' she explains.

**‘Please ask me before touching the bottle,’
Mom asks. David nods his head. ‘I’m sorry, Mom.’**

Now David is very careful. He helps Mom clean, but only with a **safe** cloth!
